Burlington Books assists teachers and schools in choosing the best solutions for their students. Your **Burlington Books** consultant will help you find the right package for your school's unique needs. This map shows possible routes.

BURLINGTON CULTURE CLASSES

THE ORIGINAL AND THE BEST!

CULTURE CLASSES

Learning English as a foreign language may not seem important to students whose exposure to all things English is limited to just a few classroom hours a week. We believe it is important to help students realise that the language they study in the classroom is connected to a whole world outside the classroom – a world of different **English-speaking cultures**, which is often hard for them to experience directly.

Well over 3,000,000 ESO and Bachillerato students studying with **Burlington Books** courses have now enjoyed a **Burlington Culture Class**. In these classes, one of our teacher trainers introduces students, in a light-hearted but instructive way, to different cultural aspects of the English-speaking world. This helps bring the language alive for the students.

If you are thinking about using a new **Burlington coursebook** this year, contact us to find out about our culture classes. There are lots to choose from!

FOR BURLINGTON, EVERY TEACHER IS A VIP!

At **Burlington Books** we are determined to continue to offer you **the best possible service all year round**, as we know how important this is for you ... as may be seen below!

Here's what teachers say:

The Shakespeare session with Nick was a complete success – everything went perfectly. Nick was, as always, outstanding. He quickly won the students over and kept them fully engaged and participating from start to finish. He's a true professional. Afterwards, the students said they had loved it and hadn't expected something about Shakespeare to be so entertaining. They had a great time! The four teachers who attended (one of them from Spanish Language and Literature) were equally impressed, and said they'd learned new things too.

M^a Victoria Rivillo Suárez
Colegio Calasanz
Alcalá de Henares, Madrid

Sam's talks are the best I've ever seen for any age group – dynamic, educational and fascinating. He's a true showman: fast-paced, charismatic, kind and full of energy. Every year, he gets even better. Thank you so much. We hope to have him back for many years to come.

Sylvia E. H.
Colegio Padre Andrés de Urdaneta
Loiu, Bizkaia

Last Friday's talks were an absolute success – truly wonderful. The students loved them, behaved beautifully and connected perfectly with Sam. I had attended some of his sessions years ago, but didn't recognise him until I saw him again. His stage presence is remarkable – with that strong, resonant voice that fills the room, he captivates students completely. He's truly exceptional. Thank you again for offering us these talks, and please thank him once more on our behalf for such an outstanding performance.

Amaya Vázquez Díaz, PhD.
IES Julio Caro Baroja
Fuenlabrada, Madrid

Thank you so much for organising these talks and for delivering them in such a warm and engaging way. Amy was fantastic! The sessions were a huge success with students of all levels, without exception. Once again, thank you for your excellent work and for the care and enthusiasm you put into every session.

ACTIVE JOURNAL

A QUIET SPACE WITHIN THE ACTIVE MINDS WORLD

Active Journal is a personal, optional space designed to reflect the approach of *Active Minds*. It offers students short moments of pause and attention through simple, guided writing.

The activities are brief and non-assessed, encouraging self-reflection and expression. Thoughtful prompts grow with students across the four years of ESO, remaining age-appropriate and linguistically accessible.

Active Journal is not a course component and is not linked to the Student's Book sequence or assessment. Teachers can use it flexibly – occasionally, regularly, or simply by making it available for students to use independently.

A few lines for writing and a quiet moment can open space for reflection and promote the students' well-being.

All four levels available!

INSPIRED TO EXPLORE. READY TO CREATE.

Non-stop Engagement

Active Minds sparks students' interest and curiosity throughout each learning situation from start to finish. Fun puzzles, exciting videos and intriguing questions lead students on a dynamic exploration of meaningful real-world topics for teenagers.

Active Learning

Active Minds follows the principles of the **Universal Design for Learning (UDL)** framework, offering flexible ways for students to access content, work on tasks and demonstrate their learning. By carrying out hands-on tasks and projects, typically of a cross-curricular and intercultural nature, students acquire new language tools and develop key competences. They learn how to think creatively and critically, do research, generate content and present it.

Well-Being

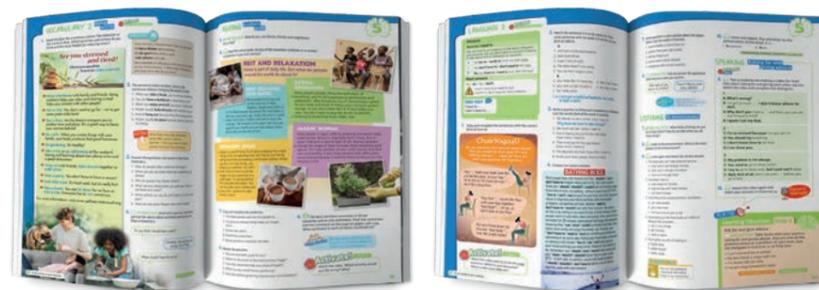

The course places a special focus on developing the **well-being** of the students by encouraging positive relationships, emotional awareness and a safe learning environment where students can grow both academically and personally. In addition, *Active Minds* integrates the **UN Sustainable Development Goals**, raising global citizenship issues in a practical and meaningful way.
